7. Frequently Asked Questions

1. Important Safety

Instructions

Hearing Safety

- To avoid hearing damage, limit the time you use the headphones at high volume and make sure you set the level to a safe level. The louder you play the volume the shorter the listening time is.

Please pay attention to these guidelines when using your headset.

- Listen at reasonable volumes for reasonable periods of time.
- Be careful so as not to adjust the volume so high you can't hear what is around you.
- Use caution or discontinue use in potentially hazardous situations.
- Excessive sound pressure from earphones or headphones can cause hearing loss over time.
- Using headphones with both ears covered whilst driving is not recommended and may even be illegal in some areas whilst driving.
- For your own safety, please avoid distortions from music or phone calls while in traffic or other potentially dangerous environments.

General Information

To avoid damage or malfunction

- Do not expose your headphones to excessive heat.
- Do not drop your headphones.
- Headphone should not be exposed to dripping or splashing.
- Do not submerge your headphones in water.
- Do not use cleaning agents containing alcohol ammonia, petrol or abrasives.
- If cleaning required please use soft, if necessary slightly dampened with a minimum amount of water or diluted mild soap, to clean the product.
- The integrated battery should not be exposed to excessive heat such as sunshine, fires or the like.
- Danger of explosion if the battery is incorrectly replaced.

Operating, storage temperatures and humidity.

- Operate or store in a place where the temperature is between -15°C (5°F) and 55°C (131°F) - up to 90% relative humidity.
- Battery life may be shortened when in high or low temperature operating conditions.

2. Your Bluetooth Headphones

Congratulations on your purchase of the Game Head headphones and welcome to Lifted Productions.

You can visit our website for further products and information at: www.liftedproduction.com

These are not ordinary headphones, they include the very latest in Digital Signal Processing (DSP) for your 3D surround sound enjoyment. With these headphones you can:

- Enjoy gaming with any BT device
- Use with PS4, Xbox or Switch devices.
- Compact design easy to carry around.
- Great for both male and female gamers.
- Enjoy all this whilst on-the-go!

What's inside the box

- The headset
- Detachable professional microphone cable with microphone for gaming
- A USB charging cable
- Quick User Guide

Other Devices

These headphones will work with Bluetooth enabled devices such as mobile phones, tablets, PCs, laptop computers, MP3 players, PS4, Xbox, Switch and devices compatible with these headphones (See Technical Specifications on page 6).

Overview of your Bluetooth headphones

- Micro USB port
- Power on/off
- Internal microphone
- Detachable external microphone
- Charging on/off
- Bluetooth LED indicator
- Modes: X-bass>Video>Game
- Volume, skip track backwards
- Volume, skip track forwards
- Play/pause, calls

3. Getting Started

Charge your headphones

- Before using your headphones for the first time charge the battery for up to 5 hours for optimum capacity and battery lifetime.
- Use only the original USB charging cable to avoid any damage.

Connect the supplied USB charging cable to the micro USB Charging slot on the headphones (see above). The LED light on the side of the headphones turns red whilst charging and turns off once the unit is fully charged.

- A normal charge typically takes 2.5 hours.

Pairing with your mobile phone

Pair your headphones with a mobile phone to establish a unique cryptic link between the phone and the headphones. The headphones can store the last 4 devices in the memory. If you pair more than 4 devices the earliest paired device will be replaced by the newest one.

Pairing a Bluetooth Device

To pair a Bluetooth device please follow these simple steps:

- Activate the BT feature on our device, using the phone menu to “add” or “search” or “scan” for new Bluetooth devices.

The Bluetooth feature is usually found in the Settings Menu of the device.

iPhone: Settings>Bluetooth>ON (starts the search)

Smartphones: Settings>Options>Bluetooth: on> searches for devices.

Android Smartphone: Settings Bluetooth: on>scans for devices.

- Activate Bluetooth pairing mode by sliding the Power Switch on, the pairing mode will start automatically. The blue LED light should then flash slowly under the search mode, flashing frequently when successfully paired.
- Select “Game Head 05” from the list of Bluetooth names showing on the device. The headset LED light should then be flashing frequently following successful pairing.
- You can now enjoy wireless freedom for your gaming, home entertainment or music and calls.

4. Using your headphones

Connect to a Bluetooth device

- Turn on your mobile phone or Bluetooth gaming device.
- Slide the Power Switch on, the pairing mode will start automatically.
 - ➔ The blue LED light now flashes.
 - ➔ The headset is now reconnected to the last connected BT device automatically, if the previous one is not available the headset will try and connect with the last connected device.

- If you turn on the Bluetooth device or activate the BT feature after turning on the headphones, you will have to reconnect the headphones and Bluetooth device manually.

- If the headphones fail to connect to any Bluetooth device within range within 5 min see section 3 above.

Battery indication

Turn on the headphones	On/off, music/call, control.
Low battery level	The LED flashes 3 times every 10 seconds until the unit is completely out of power.

6. Notices

Declaration of Conformity

Lifted Productions (HK) Ltd, hereby declares that this product is certified according to the provisions of the R & TTE Directive (99/5/EC) which declares that this device is in compliance with the essential requirements of the Directive 1995/5/EC.

Battery disposal

Your headphones are designed and manufactured using high quality materials and components, which can be recycled and reused.

This symbol means that the product contains a built-in rechargeable battery covered by the European Directive 2013/56/EU which cannot be disposed of with normal household waste.

We strongly advise you to take your old product to an official waste collection point or have a professional remove the battery. Please inform yourself about the local separate collection systems for electrical and electronic products and rechargeable batteries. Follow local rules and please never dispose of the product and rechargeable batteries with your normal household waste

Correct disposal of old products and rechargeable batteries helps prevent negative consequences for the environment and human life.

Environmental Information

All unnecessary packaging has been omitted.

We have tried to make the packaging easy to separate into materials: cardboard (the box), tray (PET) and polythene (bags, protective foam sheet etc).

The product consists of material which can be recycled and reused is disassembled by a spliced company.

Please observe the local regulations regarding the disposal of packaging materials, exhausted batteries and old equipment.

Trademarks

Bluetooth word mark and logos are the registered trademarks owned by Bluetooth SIG Inc.

The trademarks, Brand Nation Media, Brand Nation, "LP", and LIFTED PRODUCTIONS are all owned by Lifted Production LLC and are registered both in the EU and USA.

7. Frequently Asked Questions

My Bluetooth headphones won't turn on.

The battery level is too low, charge the headphones.

Why can't I pair the Bluetooth headphones with my mobile phone?

The Bluetooth function is not enabled. Make sure you have enabled the BT function on your mobile phone first and turn on the mobile phone before the headphones.

The pairing doesn't work.

Go to settings on your mobile phone or device (see section 3 above) and carefully follow the steps. Make sure you start with your mobile phone first if that is the device you are pairing.

Check to see if the blue LED light is flashing slowly. If another device, turn on the device, go to settings and follow the simple instructions under section 3 above.

My mobile phone cannot find the headphones.

The headphones may be connected to a previously paired device, so turn off the connected device or move it out of range.

Or, the pairing may have been reset or then headphones previously paired with another device. Go through the same steps as above.

Why Bluetooth headphones are connected to a Bluetooth stereo enabled mobile phone but music only plays on mobile phone speaker.

Refer to your phone instructions and select listen to music through the headphone option.

The audio quality is poor with crackling noises can be heard.

The Bluetooth device is out of range (see above its 10 metres), reduce the distance between your headphones, or remove any obstacles between them.

The audio quality is poor when streaming from my mobile phone, its very slow or doesn't work at all.

Check to make sure your mobile phone supports not only (mono) HSP/HFP but also supports A2DP (see technical information on page 7).

I can hear but cannot control music on my Bluetooth device (like play/pause/skip forward and backward).

Check and make sure that the audio device supports AVRCP (see technical information on page 7)
